

I am understanding that if LPFM is to expand that this would take priority over K-LOVE broadcasting over FM translator service. This can not happen. K-LOVE has served me as a resident of Aurora, Colorado in so many ways, but the most important is that by listening to K-LOVE, especially when struggling with, health, finances and job loss it literally saved me. I listen to K-LOVE every day, and if this radio station were to be displaced by an LPFM broadcaster providing other programming, I can not bear to imagine what will happen to the people who need to hear encouraging words when they are upon tough times. How would Colorado listeners find out what is going on in our community? I have shared K-Love with my friends and family. I would much rather listen to K-LOVE than some of radio stations while I am driving. It took a long time for me to finally find K-LOVE, the peace, encouragement and hope that is now a daily part of my life along with hundreds of thousands other listeners can not be replaced. K-LOVE save lives, it saved mine.
